

Motorola and Five Other Project 25 Equipment Manufacturers Demonstrate P25 Interoperability in Motorola DHS-Recognized Lab

Testing conducted on a Motorola ASTRO(R) 25 System at Motorola Headquarters

[Website](#)

SCHAUMBURG, Ill., Aug. 4 /PRNewswire-FirstCall/ -- [Motorola, Inc.](#) (NYSE: MOT) today announced the successful completion of [Project 25 \(P25\)](#) interoperability tests by six P25 equipment manufacturers' subscriber radios including [Motorola](#), EFJohnson Technologies, Harris Corporation, Icom, Inc., PowerTrunk, Inc., and Technisonic Industries, Ltd. on [Motorola's ASTRO\(R\) 25](#) system infrastructure. These P25 manufacturers demonstrated interoperability by successfully completing all of the required P25 Phase 1 Common Air Interface (CAI) Trunked Interoperability tests outlined in the Telecommunications Industry Association (TIA) TSB-102.CBBJ and within section 2.1.3.2 and 2.2.3.2 of the February 2009 DHS OIC Project 25 Compliance Assessment Bulletin, P25-CAB-CAI_TEST_REQ.

In January 2009, prior to Department of Homeland Security (DHS) lab recognition, [Motorola](#) led the industry with an [Interoperability event](#) to meet customers' immediate need for documented proof of interoperability of other P25 manufacturers' subscriber radios on the [Motorola ASTRO 25](#) infrastructure. The July 2009 interoperability testing was conducted in Motorola's newly recognized DHS lab as part of the formal [P25 CAP Program](#). In May 2009, [Motorola](#) was in the first group of DHS lab recognitions.

"[Motorola](#) continues to seek out opportunities to drive and enhance interoperability within the [Project 25](#) industry. This includes our engineering investment in [Project 25](#) standards development along with our participation and leadership in informal and formal interoperability testing. We understand our customers' need for interoperability and we are committed to enhancing interoperability within the industry," said Brenda Herold, Motorola corporate vice president, government and public safety products, Enterprise Mobility Solutions.

The latest interoperability testing occurred the week of July 20, 2009 as part of the formal DHS Compliance Assessment Program. SDOCs and Summary Test Reports documenting the test results will be available in coming weeks on the DHS Responder Knowledge Base website at <https://www.rkb.us/> and on Motorola's Project 25 website at [Project 25 \(P25\) Standards - Motorola USA](#).

About Motorola

Motorola is known around the world for innovation in communications and is focused on advancing the way the world connects. From broadband communications infrastructure, enterprise mobility and

public safety solutions to high-definition video and mobile devices, Motorola is leading the next wave of innovations that enable people, enterprises and governments to be more connected and more mobile. Motorola (NYSE: MOT) had sales of US \$30.1 billion in 2008. For more information, please visit www.motorola.com.
